Wrong-way Prevention System

- Off-ramp One-way streets**
- Single- or Multi-lane Off Ramps
 - One-way Streets
 - Counterflow Lanes

“Driving the wrong way in one-way traffic or on the wrong side of the road factored into over 3 percent of all fatal crashes in the US.”

OVERVIEW

Wrong-way Prevention System

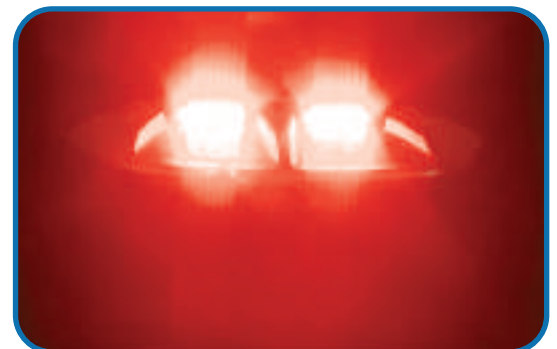

Wrong-way crashes are often head-on collisions that are more likely to produce serious injuries and fatalities. Most of the time the offenders are confused, distracted, or intoxicated drivers who tend to keep their eyes on the road directly in front of them often not seeing roadside warning signs.

Applications

- ◆ Freeway off-ramps
- ◆ One-way streets
- ◆ Counterflow lanes

Features

- ◆ 3000-foot daytime visibility
- ◆ High intensity, durable, in-road LEDs directly in the drivers line of sight
- ◆ High intensity LED signs
- ◆ Flashing 24/7 to prevent wrong way incursion, with detection options to alert and record if incursion occurs
- ◆ Cloud – linked for monitoring and automatic alarm via LaneLight Connect™
- ◆ Snowplow safe
- ◆ Solar powered, AC powered, or hybrid
- ◆ Configurable to each location
- ◆ Industry leading 5 Year Warranty
