**In-Road Crosswalk  
System**

"Designed to target the tunnel vision of today's distracted driver."

*Nothing compares to a LaneLight IRWL crosswalk system in the eyes of a distracted driver.*

## OVERVIEW

### In-Road Crosswalk System

#### IN-PAVEMENT LED LIGHTED CROSSWALKS

The LaneLight system creates a barrier of bright flashing lights directly in the drivers line of sight.

- Ideal for mid-block crosswalks
- Industry leading ultra-bright  $> 3.5$  million candela /  $m^2$  output
- 3000 foot daytime visibility
- Targets the tunnel vision of a distracted driver
- Low Profile: Snowplow Safe / Bicycle Safe
- Standard or enhanced flash patterns
- Passive activation options available
- Solar or AC power configurations
- Self cleaning design / Near Zero maintenance
